

Notice of Public Community Meeting For a Project Proposal Under the Large Renewable Procurement

The proponent identified below is proposing to submit a proposal to the Independent Electricity System Operator (IESO) to design, build, and operate a Large Renewable Project for the generation of electricity under the IESO's Large Renewable Procurement (LRP).

The LRP is a competitive process for procuring large renewable energy projects generally larger than 500 kilowatts. At the conclusion of the LRP, the IESO may award contracts for successful projects up to the specified procurement targets for each renewable fuel: 300 megawatts (MW) for wind, 140 MW for solar, 75 MW for waterpower, and 50 MW for bioenergy.

This notice is being distributed to notify members of the public of a public community meeting that has been scheduled to discuss the Large Renewable Project proposal. Information regarding the proponent, the Large Renewable Project proposal, and the meeting details are described below.

This public community meeting is being held as part of the early community engagement requirements of the LRP. The public community meeting will present details about the Large Renewable Project and its proposed connection line. Representatives of the proponent will be available to discuss the Large Renewable Project and the overall LRP process. Should this Large Renewable Project be awarded a contract, the Large Renewable Project would need to obtain all required permits and approvals and conduct any further required community engagement activities.

Further details regarding the LRP are available at www.ieso.ca/lrp.

Proponent and the Large Renewable Project proposal

Proponent: Otter Creek Wind Farm LP
Qualified Applicant from the LRP Request for Qualifications stage associated with the proponent: Renewable Energy Systems Canada Inc.

Name of the Large Renewable Project proposal: Otter Creek Wind Farm Project

Renewable fuel of the Large Renewable Project: Onshore Wind

Proposed capacity of the Large Renewable Project (MW): up to 60 MW

Proposed connection points of the Large Renewable Project: The connection points will be either on circuit N5K, or L28C\L29C.

Proposed location of the Large Renewable Project and proposed connection line

The project is to be located in the Municipality of Chatham-Kent, just north of Wallaceburg, generally bounded by Stewart Line and McCreary Line to the South, Whitebread Line and Kent Line west of Mandaumin Road to the north, Mandaumin Road to the east, and Payne Road to the west.

Public community meeting information

Date: Tuesday August 25, 2015

Time: 5-8pm

Location: Baldoon Golf Club, 7018 Dufferin Rd, Wallaceburg, ON
